

Clark Montessori Athletic Department Student Permission

I hereby allow the Athletic Department to use my child's name and likeness, for example in photographs or video, in its various materials and productions. If this Permission is not signed, the Athletic Department will do its best to make sure that your child's likeness is not part of any picture, video, or the like, but you should know that sometimes a child may inadvertently appear in a field, court, or distance shot. A child will never be identified by name in any picture, video, or the like. This Permission does not apply to the traditional team pictures that are taken at the beginning of the season; appearing in these pictures shall be construed as permission to use these pictures. This Permission does not apply to your child's name appearing in the Growler, the weekly sports newsletter; if you do not want your child's name to appear in the Growler, or any successor publication, a parent must inform the Athletic Director in writing. This Permission shall be in effect until the Athletic Director is notified in writing that this Permission has been revoked.
